The Great Wall of China is called the “Ten thousand Li Great Wall” in Chinese. In fact, it’s more than 6,000 kilometers long. It winds its way from west to east, across deserts, over mountains, through valleys till at last it reaches the sea. It is one of the wonders of the world.

The Great Wall has a history of over twenty centuries. The first part of it was built during the Spring and Autumn Period. During the Warring States Period, more walls were put up to defend the borders of the different kingdoms. It was during the Qin Dynasty that the kingdom of Qin united the different parts into one empire. To keep the enemy out of his empire, Emperor Qin Shi Huang had all the walls joined up. Thus, the Great Wall came into being.

The Great Wall is wide enough at the top for five horses or ten men to walk side by side. Along the wall are watchtowers, where soldiers used to keep watch. Fires were lit on the towers as a warning when the enemy came.

It was very difficult to build such a wall in the ancient days without any modern machines. All the work was done by hand. Thousands of men died and were buried under the wall they built. The Great Wall was made not only of stone and earth, but of the flesh and blood of millions of men.

Ocean Park Hong Kong is a theme park which was built with donations from the Royal Hong Kong Jockey Club (now Hong Kong Jockey Club) and opened on 10 January 1977. The park is operated by Ocean Park Corporation, which is a statutory (法定的) department.

In the early operation of the park, the main sources of income for the park were the ticket prices and the funding from the funding of Jockey Club. Since the ticket price was low, most of the time Ocean Park was operating under deficit (财政赤字). On 1 July, 1987, the government established a 200 million trust from the funding of Jockey Club, under the Ocean Park corporation Ordinance. This separated Ocean Park from Jockey Club and became a non-profit organization. It needs to be responsible for its own income and was allowed to use commercial means to operate the park.

Since it was permitted to use commercial means to operate, it gradually raised its ticket price and the deficit turned into profit. In 1992, 3 million visitors visited the park. Since 1998, due to the East Asian financial crisis (经济危机), aging attractions, and the passing away of the killer whale, the park recorded a deficit for a couple years. Although it was allowed to host 2 pandas in 1999, the number of visitors did not go up and the Ocean Park was forced to close some attractions and turned to bringing in more rides in an attempt to capture the youth demand. As a result of the opening up of mainland visitors under the Individual Visit Scheme, Ocean Park recorded an astonishing 4 million visitors in the year 2004 – 2005, the highest since the park's opening.
